| BIOLOGICAL | BIGHORN | IN | Need rules and regulations to protect environment, especially for bighorn sheep. | B | F | | |
| BIOLOGICAL | BIGHORN | LTR | Recreation in PBS critical habitat should be de-emphasized and avoided from January 1 – September 30. | B | F | | |
| BIOLOGICAL | BIGHORN | MAC1 | Recreation planning must call for trails avoidance on the 10 problem trails for Peninsular Bighorn Sheep (Jan-Sept.) | B | F | | |
| BIOLOGICAL | BIGHORN | MAC1 | We should be very concerned about the sheep who die when they eat the oleanders and other noxious and toxic plants that the public grows at the country clubs. | B | F | | |
| BIOLOGICAL | BIGHORN | MAC2 | Researcher should try leaving the bighorn sheep alone for awhile instead of scaring them (literally) to death and stressing them by chasing them with helicopters. | B | F | | |
| BIOLOGICAL | BIGHORN | MAC2 | More research is needed on how to manage the bighorn sheep research people as it appears they have become more detrimental to the survival of the sheep than the recreational public. | B | F | | |

| BIOLOGICAL | BIGHORN | PD | The fact that you have, lawnmowers, fertilizers, chemicals, heavy machinery, all the hammering and sewage and everything else that goes on when building these large estates and country clubs right up in the Bighorn area, you forever remove thousands of acres that they never get back. | B | F | | | |
| BIOLOGICAL | BIGHORN | PD | I don't see how people who are on the trails who respect it and are on the bike or on their feet, you have a dog or don't, how they are doing more damage than these clubs with all the machinery, chemicals, et cetera, | B | F | | | |
| BIOLOGICAL | BIGHORN | PD | when you start taking the land away from the public and isolating these groups where only those of privilege get to use it, there's a severe imbalance there. | B | F | | | |

| BIOLOGICAL | ESA | LTR | The endangered species Act appears to be used as a vehicle to extort millions of dollars from the Government by endless lawsuits. | B | F | | | |

| BIOLOGICAL | INVASIVE SPECIES | IW | Invasive species management aggressive strategy for eradication | B | F | | | |
| BIOLOGICAL | INVASIVE SPECIES | PD | if there's going to be weed-free feed required, I think all the government agencies ought to put in place some sort of a cleaning method for all the vehicles and everything else that they take in and out of the back country that also has the potential for spreading invasive weed species. | M | B | F | HCP | |
